Dear Ms. Smithson:

Re: Reminder Letter for Permit Transfer Application Deficiencies, Material Energy Research and Recovery Company to Chemstar Lime Company, Marblehead Mountain Processing Facility, M/045/024, Tooele County, Utah

On February 11, 1993, the Division sent you a letter regarding your request for approval of a permit transfer of the Marblehead Mountain Processing Facility from Materials Energy Research and Recovery Company (MERR) to Chemstar Lime Company. We advised you that there were some deficiencies in the transfer papers as well as in the Reclamation Contract which needed to be resolved before we could request Board of Oil, Gas and Mining approval of the replacement form and amount of surety presented by Chemstar Lime Company. We cannot issue approval of the permit transfer until the Board approves of the new Reclamation Contract and replacement surety.

A copy of that February 11, 1993 letter which stated the deficiencies is enclosed for your reference. Page 5 of form MR-5 (Attachment 1) does not need to be completed. Since our February letter, we have revised the bonding form and do not need this page. The newly revised and complete set of forms MR-5 (bond form) and MR-RC (Reclamation Contract) is enclosed. Both of these forms have been revised since our last correspondence with you. Perhaps it would be best if the newly revised forms were used. This may save any confusion at the time we present these forms to the Board for their approval.

We would like to get this permitting matter finalized as soon as possible and would appreciate hearing from you by August 24, 1993. It is important to realize that the Division will continue to hold USPCI/MERR responsible for all onsite activities and

operations, until the permit transfer process is complete. If you have any questions regarding these items, please do not hesitate to contact me.

Thank you for your cooperation in getting these permitting issues finalized.

Sincerely,
